Sir,

With reference to correspondence
dated 25th June 1897 enquiring
whether the Board now consider
it necessary to pay Rs 1-4-0 per mile
to the water inspector for super-
vising the laying of horse service
pipes in addition to the increased
rate of horse allowance lately
sanctioned, I have the honour to
state that the Board in Proceedings
dated 5th inst resolved that no

of the total amount recovered from the house owners be given him. A copy of its resolution is herewith submitted.

I request permission for the payment of the supervision allowance at the rate of Rs 10/- as per previous decision of the Board for his past services and at Rs 2½ per cent on the total sum to be recovered on house connections in future.

Sir,

With reference to Government Proceedings no 3221 / L.T. 127-95 dated 8th September (Col. 21)
1897, enquiring why the water Inspector who gets a horse-allowance of Rupees 15 per mensem should be given a remuneration of 2 1/2 per cent on the amount recovered from the house owners for service pipes, and what is the amount so recovered, I have the honor to state that as the board considered that the inspection of the Public Fountains

house connections including 30 of them in Public buildings which are every day increasing in number could not be satisfactorily carried out without a horse the Water Inspector was granted an allowance of Rs 15/- to maintain a horse.

2 As the laying of pipes for house connections entailed on them more work such as inspection, preparation of estimates and supervision measuring and preparing bills after its completion, an allowance of 10 per cent on the cost of construction was recovered from the house owners and paid to them, subsequently only Rs 10/- a month was paid out of it crediting the balance to meet the charges for the municipal tools used on such works. Now a contractor was appointed

to do the above work and even if he has to attend to all the above processes at his leisure hours though not to such extent as before

3 therefore the Board resolved to give 2 1/2 per cent on the amount recovered from the house owners, and I am also of opinion that the same may be given him as it is work is in addition to his own legitimate duty. The enclosed statement will shew that Rs 911-15-7 was credited to Municipal Funds under head XI "Payment for Municipal service rendered to individuals" as per instructions from the Comptroller and Rs 70/- out of that has to be paid to the water Inspector as per previous resolution.

I request that you will be good enough to obtain

of Government for paying 2½ Per cent for works from 1st august 1897. and Rs. 701- being the arrears due to him up to 31st July 1897.

I have the honor to be

Sir,

The Secretary to the
Government of Mysore
Revenue and General departments

Sir,

With reference to Government-
Proceedings no 6117-18 dated
27th November 1897, enquiring
whether the Water Inspector may
not be allowed a suitable in-
crease of pay with reference to
average amount of commission
the payment of which is objection-
able, I have the honor to state
that the average amount of
commission paid per month was
rupees 12/- owing to number

of house connections being the large bul- of sale- permission for laying house service pipes has been issued under the instructions from the Chief Engineer.

Therefore I recommend that the Water Inspector may be given a permanent- increase of Rs 5 a month to his present- salary of Rs 25 with effect- from the 1st of august- 1897 from which date- the payment- of commission ceased.

The amount- can be met- from the General Savings in the Budget- for the year 1897 98 I request- that- you will be good enough to obtain the

sanction of the Government for
the above increase.
